

Works at West End Plastic Surgery

*art contains
the story of us,
ever evolving*

The works here are from several series; 'truth' 'infinity' and 'abstracts'. They are paintings, mono prints and haiku. They are created to communicate as light energy and provide illumination to our existence.

Karin Edgett is a contemporary artist. She has a degree in fine arts and is a certified nutritional cook. Her CV includes graphic designer, owner and creative director of Edge Advertising, foster parenting for DC youth, and inventor/designer of the first smart watch that measures sun exposure. She currently divides her time between cooking instruction, creating art, sailing, dancing, meditating and volunteering for The Inspire Project a NASA educational portfolio non-profit focusing on stem programs for DC area youth. She is a member of Capitol Hill Art League, The Alexandria Art League and Washington Printmakers Gallery. One of her primary missions is conscious evolution.
